

Notes on the online written test

The written test for the October entrance examination will be held online by using your PC. Along with this, the test time and test method for the written test will change significantly.

Test contents

There is no substantial change in the scope and contents of 3 subject areas. However, in the Urban and Regional Planning area, the weight of the essays will increase.

Test time

Test time will be shorter than usual years.

Test format

Although it differs slightly depending on the subject areas and problems, there are the following two test formats at this time.

Multiple-choice method: Select the correct answer from multiple options.

Direct input method: Enter the answer directly from the PC (numerical value, essay, etc.)

Multiple-choice method

Q1: Calculate the following formula. $1+2+3=$

Direct input method

Q2: Calculate the following formula. $4+5+6=$

Q3: Explain xx, and discuss its problems.
